Published: 26 September 2019

1. Classification of Markets

A formal review of country classification within the FTSE global equity indexes is conducted on an annual basis each September using a comprehensive, transparent and consistent methodology. This Annual Review incorporates ongoing country classification research and classifies stock markets as Developed, Advanced Emerging, Secondary Emerging or Frontier within the FTSE global equity indexes.

2. FTSE Watch List

To ensure that potential movement of markets between classifications is completely transparent to investors, a Watch List of markets being considered for reclassification is maintained.

The following markets were on the Watch List following the March 2019 Interim Country Classification Review:

- Agentina: possible reclassification from Frontier to Secondary Emerging
- Romania: possible reclassification from Frontier to Secondary Emerging
- Tanzania: possible inclusion as Frontier
- Vietham: possible reclassification from Frontier to Secondary Emerging.

3. Progress of Watch List markets since March 2019

Secondary Emerging Watch List

Argentina

Argentina was added to the Watch List in September 2018 for possible reclassification to Secondary Emerging market status. In September 2019, the FTSE Country Classification Advisory Committee supported the following criteria rating changes:

- "No objection to or significant restrictions or penalties applied to the investment of capital or the repatriation of capital and income": downgraded from 'Fass' to 'Nor Met'
- "Stock Lending is permitted": upgraded from 'Not Met' to 'Rentricted'.

Following the imposition of capital controls on 1 September 2019, FTSE Russell announced that in accordance with the "Index Policy in the Event Clients are Unable to Trade a Market" (see: <u>link</u>), all index changes for Argentinian securities resulting from the ETSE Frontier September 2019 annual review have been suspended until further notice.

As a result of the imposition of capital controls, **Argentina will be removed from the Watch List for possible reclassification from Frontier to Secondary Emerging market status and retained as a Frontier market within FTSE Russell indexes.**

FTSE Russell continues to engage with the Argentinian market authorities and will provide an update on the Frontier market status of Argentina and the treatment of Argentinian securities within the FTSE Frontier Index Series once further clarification is obtained on the longevity of the capital controls.

Romania

FTSE Russell is pleased to announce that **Romania will be assigned Secondary Emerging market status** effective in conjunction with the FTSE Global Equity Index Series (GEIS) semi-annual review in September 2020.
